# GATE OPERATORS & ACCESS CONTROL SYSTEMS

We proudly work with trusted manufacturers like LiftMaster, DoorKing, and FAAC to deliver dependable, high-quality solutions backed by industry-leading technology.

Whether you're securing a private residence, gated community, commercial facility, or industrial site, we design and install customized automation solutions that match your property's layout and security needs. From smooth-operating slide and swing gate systems to advanced keypad, card, and mobile-based access controls, our systems are built for durability, performance, and long-term reliability.

# ABOUT MOUNTAIN FENCE AND DECK

At Mountain Fence & Deck, we build decks designed for the way you live outdoors in the High Country and in Western North Carolina. Whether you're overlooking long-range mountain views or creating a backyard gathering space, our decks are built for durability, comfort, and timeless style. Every deck is customized to your home, your terrain, and your vision.

---

# COMPOSITE DECKING

---

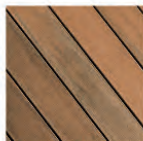

It's eco-friendly and resists rot, splintering, and insect damage, making it suitable for all conditions.

## BENEFITS:

- Free of wood fillers and toxic binding agents
- Eco-friendly, made of 95% recycled materials
- No wood means no rot, mold, mildew, warping, or cracking

## COLORS

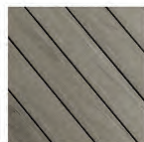

Tigerwood

Tropical Walnut

Hazelwood

Ash Grey

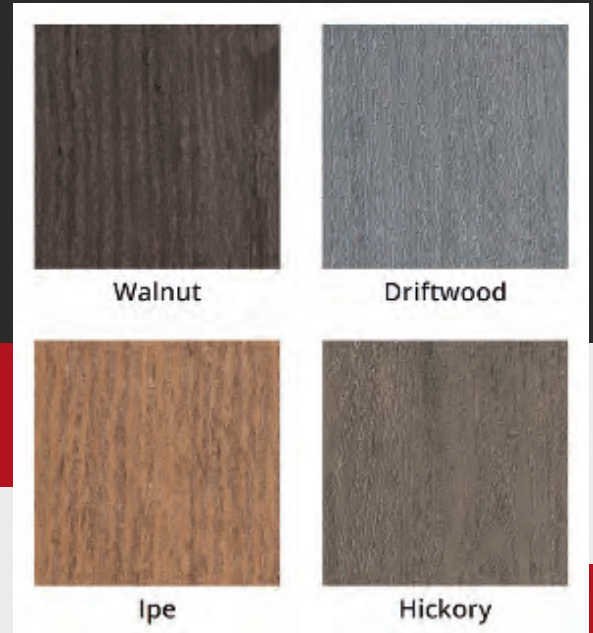

# PVC DECKING

PVC decking (polyvinyl chloride decking) is another alternative to wood decking made entirely from plastic. Like composite decking, PVC decking is produced using a coextrusion process that bonds an outer cap layer to the inner core of the board.

## BENEFITS:

- Exclusive Korelite technology
- Stays up to 30% cooler than competing PVC decking
- Advanced colour technology for longer-lasting good looks

## AURORA PVC

Its sleek, wire-brushed texture captures the charm of weathered timber while maintaining the refined, modern aesthetic that defines the Clubhouse brand. The result is a luxurious, inviting deck surface that feels both comfortably familiar and strikingly current.

# RAILINGS

---

Railing systems are built for unbeatable durability—resistant to harsh weather, low-maintenance, and made to last.

## MESH RAILING

Mix & Match Rail & Mesh Colors

## VINYL RAILING

Variety of Styles

## GLASS RAILING

Tempered Glass Panel Infills

## CABLE RAILING

Vertical or Horizontal Designs

## ALUMINUM RAILING

Style & Color Options

## DRINK RAIL ADAPTER

Convenient & Stylish
